

## **Theramex and Innovis Pharma announce their partnership for the promotion and distribution of Actonel® in Greece & Cyprus**

Athens, April 3, 2019 - Theramex and Innovis Pharma are delighted to announce that the two companies have entered into a partnership for the promotion and distribution of Actonel® (Risendronate) in Greece and Cyprus.

Risendronate, once weekly or two consecutive days per month, is indicated for the treatment of postmenopausal osteoporosis, the treatment of osteoporosis in men and Paget disease. Risendronate offers reduction of vertebral, non-vertebral and hip fractures, improves compliance and persistence with therapy, and provides patients with the convenience and ease of self-administration.

Anish Mehta, Chief Executive Officer at Theramex, said:

*"We are pleased to be entering into a long-term partnership with Innovis Pharma for the promotion and distribution of Risendronate. We believe that Innovis is the right commercial partner for Theramex to ensure that prescribers and patients continue getting access to this incredibly important product for the treatment and prevention of Osteoporosis."*

Makis Economou, Managing Director of Innovis Pharma, commented:

*"We are excited to welcome Theramex to the Innovis family and to our continuously expanding network of partners. To be trusted with this legacy brand is another key milestone for Innovis and marks our success in emerging as the best positioned pharma partner for high value brands in the region. This product addition strengthens further our existing portfolio and accelerates our penetration in this important therapeutic area."*

**About Theramex** Theramex is a leading, global specialty pharmaceutical company dedicated to women and their health. With a broad portfolio of innovative and established brands covering contraception, fertility, menopause and osteoporosis, we support women at every stage of their lives. Our commitment is to listen to and understand our patients, serve their needs, and offer healthcare solutions to help improve their lives. Our vision is to be a lifetime partner for women and the healthcare professionals who treat them by providing innovative, effective and safe solutions that care for and support women as they advance through each stage of their lives.

**Innovis Pharma** is a leading Greek pharmaceutical company that delivers high-quality, patient-centric healthcare solutions covering all major therapeutic areas. Combining growing portfolio capabilities in generics & specialty brands, medical devices as well as specialized food supplements, Innovis Pharma is focused on delivering long term and sustainable results for patients, healthcare professionals and customers. The company markets its products to wholesalers, distributors, hospitals, private clinics, independent & retail pharmacy chains, and is headquartered in Athens, Greece.
