## **Theramex announces the acquisition of HRT patch assets from Janssen Pharmaceutica NV**

LONDON – Friday 25th October 2019: Theramex is announcing the purchase from Janssen Pharmaceutica NV of various intellectual property rights (including trademark rights) and marketing authorisations for the manufacture and supply of HRT patches for menopause worldwide.

Theramex completed the acquisition on 23 October 2019.

### **About Theramex**

At Theramex we provide therapies that help women experience a better quality of life. We have a portfolio of medicines covering contraception, fertility, menopause and osteoporosis, and we continue to complement our range with new and innovative treatments. Our industry-leading global team includes more than 350 talented, experienced, multi-disciplinary professionals, many of whom have dedicated their careers to Women's Health, across 50 countries. We have a portfolio of over twenty medicines covering contraception, fertility, menopause and osteoporosis.
